

ECO PACT

INTRODUCING THE NEW

ALUTEX PALLET

Eco Pact and its' subsidiary Eco Aluminum Pallets are excited to announce the introduction of their newest Eco friendly product, the ALUTEX PALLET. Made from a combination of completely recycled and bio friendly materials, the ALUTEX PALLET is a revolutionary concept, to the pallet industry.

By creating a light weight, cost effective pallet solution, the ALUTEX PALLET has a weight capacity greater than wood and plastic pallets in use currently. The ALUTEX PALLET is FDA approved for food and contact use, while being constructed of non toxic, 100% recyclable Eco friendly materials. The ALUTEX PALLET is the cost effective, long term savings solution the pallet industry has been waiting for.....

ALUTEX

Sandwich Panel with Recycled Core

ADVANTAGES

- Low Cost
- Stiff Rigid Panel
- Excellent Impact Properties
- FDA Approved
- 100% Recyclable
- Thermal Expansion similar to Aluminum
- Easy to install and repair
- Moisture and Solvent Resistant
- Corrosion Resistant
- Heat Formable
